

## ES37 CLEANER MAINTAINER POLISHER

- Formulated to give maximum cleaning efficiency
- Removes dirt, soils, oils, greases, mold & mildew
- Improves appearance of worn floors

ES37

	ES37
APPEARANCE	Clear, colorless to slight yellowish liquid
ODOUR	Typical
SOLUBILITY IN WATER	Dispersible
RELATIVE DENSITY	N/A
pH-VALUE	11.2 +/- 0.5
pH-VALUE AT DILUTION (1 oz: 1 gal.)	8.5 +/- 0.2
VISCOSITY	N/A
SHELF LIFE	3 years

SIZES	
ES37-4	3.78 L (1.0 U.S. Gal.)
ES37-18	18.9 L (5.0 U.S. Gal.)

### BENEFITS

- Easy application, no rinsing required.
- Water-based. Low odor. No sticky residues.
- Superior performance at the lowest possible dilution cost.

### DESCRIPTION

ES37 is specifically designed to clean, refurbish and maintain any densified, hardened or polished terrazzo/concrete floor surface. This product removes marking and soiling, while also creating a smoother more resilient surface, reinforcing the surface of the floor with every use.

ES37 contains a special low friction lubricant that extends the life of floor pads, reducing cost and increasing the gloss level of the floor. Use this product in conjunction with the Enviro-Solutions® Cleaner Maintainer Polisher Pads (ES-CMP).

### DILUTION

- 1 oz. ES35 per gallon of water (1:128)
- 7.8 mL per liter of water

Product yields approximately 50,000 - 60,000 square feet per gallon (3.78 L)

### DIRECTIONS

1. Clean your floors as you normally would by using your auto scrubber with the ES-CMP pad grit matching your highest level of polish and ES37 Cleaner Maintainer Polisher diluted according to label instructions.

### PERSONAL PROTECTION

Please refer to product label and SDS

For additional instructions, consult your Enviro-Solutions® floor care specialist.
