

# ServClean™

FOAM DG

Penetrating foam cleans better,  
rinses easily

## PRODUCT INFORMATION SHEET

### Description:

Wet penetrating foam cleans deep – saves labor.  
Highly concentrated formula assures economy in use.

### Product Use:

A penetrating foam cleaner for walls, equipment & floors.  
Breaks down organic material and loosens embedded soils.  
Rinses easily.

### Dilution:

1:64 for manual application  
1:128 for foam application

### Directions for Use:

1. Remove or cover all foods in areas to be cleaned. Rough clean and scrape gross deposits of waste matter, bone, oil, and fat or meat particles from surfaces to be cleaned. Remove hand tools and cutting boards for hand cleaning. Open all mixers and saws.
2. For foam application, fill reservoir with full strength solution. For most cleaning, the proportioner on the reservoir should be set to 1:128 (1 oz. per gallon). For manual application, dilute product 1:64 (2 oz. per gallon).
3. Using hot water, apply foam liberally to surfaces, working from the bottom up.
4. Allow foam to work at least 5 minutes.
5. Rinse surfaces thoroughly with warm potable water and allow to drain completely before reusing.

### Caution:

- Keep out of reach of children. Read label before use.  
Use personal protective equipment as required.
- Refer to Safety Data Sheet before use.
